Vehicles listed in this chart are recorded as "Pierce-Arrow" in various sources (state registration lists, etc.), but cannot be verified because of missing or incorrect serial numbers, typographical errors or other erroneous information. "Year", "Model" and "Serial Number" in those columns are the numbers printed in lists published by state registration agencies, etc., and may not be accurate. Other Pierce-Arrow vehicles known to exist and experimental cars associated with the Pierce-Arrow company are also recorded. Many Pierce-Arrow owners are listed, as publicized by the factory. although their specific cars are not identified.
